

MODERN SLAVERY ACT STATEMENT

Tramlink Nottingham Limited (TNL) is a Private Finance Initiative Concession to build, finance and operate the Nottingham tram network.

TNL is committed to ensuring it is a responsible business with robust controls in place to provide comfort that modern slavery and human trafficking are not taking place within its business and/or supply chain.

Three suppliers make up 97% of our supply spend. TNL has engaged with these suppliers to confirm that they either have a modern slavery statement or adopt sufficient human resource processes to ensure slavery or human trafficking is not taking place.

During 2019 the remaining supply chain will be risk assessed and approached to ensure TNL is comfortable there are sufficient controls in place to prevent modern slavery.

This statement is made pursuant to Section 54 of the Modern Slavery Act 2015.

Signed for and on behalf of Tramlink Nottingham Limited:

Adrian Wallace
Chief Executive Officer

21st December 2018
