

*Canadian Foresight did not provide individual answers to our questions, but instead sent the following statement:*

Canadian Foresight Group would be more than willing to participate in your organization's Myanmar Foreign Investment Tracking Project; however, it would be impossible for us to respond by your deadline of December 12th , in a manner that would correctly reflect our firm's commitment to corporate social and environmental responsibility. We anticipate signing the Offshore Block M15 Production Sharing Contract ("PSC) and Joint Operating Agreement ("JOA") in mid-January. Immediately thereafter we will be engaging an international consulting firm to conduct an independent Environmental Impact Assessment ("EIA") and Social Impact Assessment ("SIA"). Once we have incorporated those independent findings and suggestions into our policies and procedures we would be in a position to discuss them, and more importantly, incorporate any third-party feedback. Realistically, it will probably take six months to complete the EIA and SIA.
