

Response from Shell to Oxfam's Open Letter

4 February 2022

Shell plc is a proud EITI Board member and will continue to input into the EITI's current review of the Company Expectations for EITI Supporting Companies. As a consensus-based organisation, the EITI, through the EITI Secretariat, is seeking input from different EITI constituencies throughout the process and will guide the review to its conclusion.

In addition to the EITI, Shell continues to demonstrate our commitment to transparency, which we see as vital for building trust with our stakeholders. We believe that transparency on our financial and non-financial performance strengthens trust in Shell and our relationship with our customers, investors and stakeholders.
