

NOTE OF CLARIFICATION

Jirau Energia is a public service concessionaire, responsible for the installation and operation of the Jirau Hydroelectric Power Plant, located on the Madeira River in the city of Porto Velho – RO. The Jirau Hydroelectric Plant has an installed capacity of 3,750 MW and plays a fundamental role in the generation of renewable energy for Brazil. Since implementation, its businesses have been characterized by the best environmental, social and governmental practices in compliance with the applicable socio-environmental norms and regulations. All the plant's licenses are current.

The content published in this newspaper report goes back to the year 2017 when Jirau Energia was notified of a single infraction by Instituto Chico Mendes de Biodiversidade (ICMBio), with the penalty of a fine for the supposed environmental impact caused to the Matinguari National Park. This infraction was contested by Jirau Energia with a view to clarifying the mistaken liability for the results of an extraordinary flood event on the Madeira River in 2014 and caused by rainfall in Bolivia.

All the information necessary for clarification of this matter has been provided, the Company continuing to be determined to find solutions which meet ICMBio's genuine interests in the preservation of the Park as well as the environment as a whole, which for Jirau Energia is an irrevocable commitment.

In addition, it is worth highlighting that the Jirau Project was evaluated, in 2013, according to the Hydropower Sustainability Assessment Protocol (HSAP) with excellent results and scores of 4/5 for the items. The plant was responsible for generating approximately R\$ 600 million in paidup royalties and recognized for good practices by IBAMA, the federal environmental protection agency in the Environmental Protection Program (PEA) with two Certifications for Good Licensing Practices, in 2021. Particularly outstanding was Jirau's Certification of Quality of Measures for Recovery of Degrade Areas. For more information, access <https://www.jirauenergia.com.br/meio-ambiente/>.
