

Upfield response – Business & Human Rights Resource Centre

Upfield is committed to the sustainable sourcing of palm oil. BBF does not enter our supply chains. We do not source from Agropalma directly, but they appear in our mill list as it is possible they enter our supply chains indirectly. We are investigating the issue, and as part of our policy and process, we will review and engage with our partners as necessary, asking them to take appropriate actions towards Agropalma.
