

### **BHHRC invitation to respond: Selection of host for FIFA Club World Cup 2023**

At its meeting of 14 February 2023, the FIFA Council unanimously decided to appoint the Saudi Arabian Football Federation as tournament hosts for the FIFA Club World Cup 2023. The tournament is due to be played under the same format as in recent years, with seven participating clubs. The tournament will be held from 12 to 22 December 2023.

The hosting requirements for all FIFA tournament hosts include human rights provisions in relation to all activities associated with the tournament in line with the UN Guiding Principles on Business and Human Rights, which the host for the FCWC 2023 had committed to uphold prior to selection. Based on these requirements, FIFA is now establishing a more detailed human rights plan for the tournament that will be implemented in collaboration with the hosting Football Federation.
