Dear Danny and Gayatri,

Thank you very much for your email correspondence dated October 18 and 20, 2023.

Meta recently published a detailed [Newsroom post](#) setting out specific steps we've taken related to the current conflict. It's available in English, [Arabic](#), and [Hebrew](#).

The post will be updated on a regular basis as events unfold, and as Meta adopts additional measures. At the time of writing, the most recent update was made October 18, 2023.

We also note that Meta commissioned independent human rights due diligence on Israel Palestine in 2021, and we [published](#) the report and a Meta response in September 2022.

In addition, last month we provided a [detailed update](#) on our response to due diligence recommendations, shared as an annex to our [2022 Human Rights Report](#).

We remain at your disposal if you have any further questions.

Yours sincerely,

A handwritten signature in black ink that reads "Miranda Sissons". The signature is fluid and cursive.

Miranda Sissons
