

“Armani’s response”, 27 February 2024

Our production team has been in constant contact with our suppliers and our on-site quality inspectors have provided continuous technical assistance.

In particular, no episodes of payment delays or severance pay being denied have been reported, despite the inevitable production delays.

We ensure that our audit checklists are thorough and verify all issues relating to migrant workers, including vulnerable workers such as refugees, and their conditions, such as working hours, wages, and instances of forced labour, discrimination, salary reductions, layoffs or general misconduct.
