

“Outfit International’s response”, 2 April 2024

I would like to inform you that Outfit International terminated our contract with Garmex Saigon Cooperation in 2022. (our final product order was recorded in-house here in Denmark on December 16th, 2022). We were not made aware of the allegations against this vendor during our contract period.

I would like to state that Outfit International requested that this vendor join Amfori BSCI, however, the vendor did not respond to our request. It is standard procedure that we require our vendors to be licensed with Amfor BSCI, WRAP or SA8000.
