Subject: **Information regarding Schiebel CAMCOPTER® S-100 and Myanmar**

Dear Ms. Benjamin and Ms. Yolanda,

As an internationally operating and globally successful company, Schiebel supplies customers all around the world based on relevant regulations.

The Myanmar military is not one of our customers and export of the goods listed in the IIFFMM Report as “budgeted in the years 2018 and 2019” did not happen. Neither earlier exports of such equipment to the military in Myanmar have ever occurred.

In the context of the modernization of Myanmar’s infrastructure and traffic system, Schiebel has exported CAMCOPTER® S-100 Unmanned Air Systems to Myanmar in the past. That export took place with valid export licensing, before the EU Embargo was imposed and in full compliance with all national and international regulations.

If you have any further questions please feel free to contact us.

Best regards,

Elektronische Geräte GmbH

Hannes Hecher
Managing Director, CEO
