+++ PORR Statement +++

“The government in Qatar acted decisively in the context of the current situation and introduced targeted measures to combat the social as well as the economic impact of COVID-19 promptly. Employees are the most valuable asset of any company and it is crucial to protect them. PORR acts on the current issue appropriately, with consideration, common sense, targeted measures and clear recommendations. We are constantly monitoring the situation in Qatar, VAE as well as across all other countries in which we are operating. We inform our employees proactively with the latest information on how they can best protect themselves against an infection. Furthermore, we are in constant dialogue with all relevant authorities, experts and governments across our markets and are setting all appropriate measures - in accordance with the local official safety regulations - to protect our employees holistically.”
