---

**Business and Human Rights in South East Asia**

**Risk and the Regulatory Turn**

Edited by **Mahdev Mohan**, Singapore Management University and **Cynthia Morel**, Singapore Management University, Singapore

**Series: Routledge Research in Human Rights Law**

Business and human rights has emerged as a distinct field within the corporate governance movement. This book draws on the UN Guiding Principles and recent national plans of action, to provide an overview of relevant developments within the ASEAN region. Bridging theory and practice, the editors have positioned this book at the intersection of human rights risk and its regulation. The book sheds light on how stakeholders currently approach business and human rights, and explores how the role of ASEAN States, and that of the institution itself, may be strengthened.
