July 20, 2011

Mayling Chan
East Asia Researcher & Representative
Business and Human Rights Resource Center

Dear Ms. Mayling Chan,

Your letter dated July 19, 2011 was received.

We have been aware of coverage on the labor issues concerning reconstruction of the motorway between Bishkek and Torugart in Kyrgyz. As a renowned international company, we have always complied with local laws and regulations and performed social responsibilities to return to local communities and people.

In response to some negative reports on the labour issues, you can be assured that our employees have been treated fairly as we have paid constant attention to protecting their rights and improving their working and living conditions. However, if there are some problems related to their payment or working conditions, we will take immediate action to investigate on the issues and guarantee that these problems can be addressed timely and effectively.

We really appreciate your attention and notification.

Best regards,

China Road and Bridge Corporation
